HCN Events Program

Connect with your attendees in-room and in realtime.

Enhance your attendees event experience with a personal welcome and link to vital event information on the HCN in-room touchscreen tablets.

HCN has developed a unique event program application that allows you, the event organizer, to broadcast vital event information into the rooms of your attendees.

This interactive event program is perfect for in-hotel business meetings as well as social gatherings such as weddings, Bar Mitzvahs, anniversaries, etc.

Give your attendees a direct in-room link to vital event information and maximize your branding! **100% of all the information is erased once the guest checks out.**

Vital event links include:

* A personalized welcome screen

* Event agenda

* Meeting room floor plan

* List of sponsors

* Link to organizer's website

* Link to sponsor's website

* Bus/shuttle schedules

* Daily event news

* Photo gallery

Please contact HCN directly to discuss the best available package options to fit your needs.
